Agenda - Python Recap 2

collection (set ....) ⟶ function

collections
Type casting
input & output
reference & shallow copy & deep copy
String

function - 2 ⟶ intro to OOP

Computer-vision (AI → ML → DL → NLP
DL → CV ← generate a image
image ← data

camera → o/p → image/frame

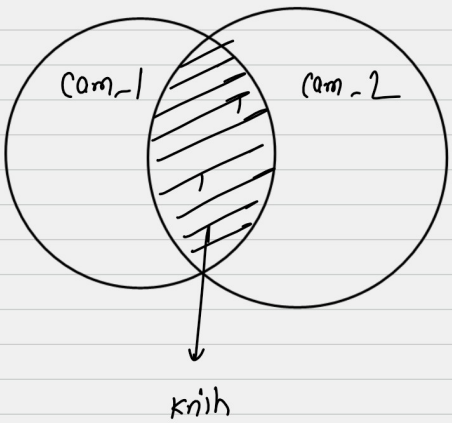

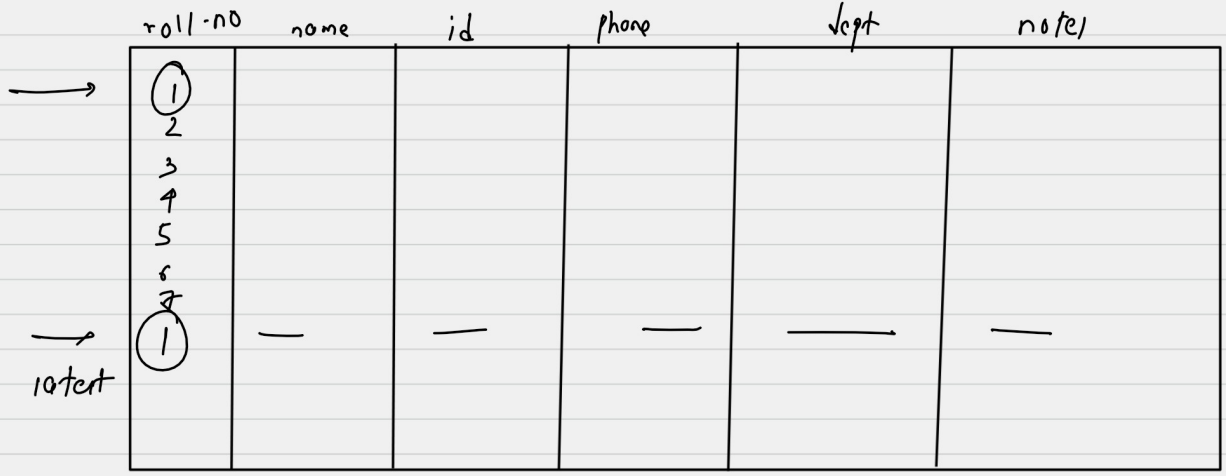

→ cam-1 (living room)

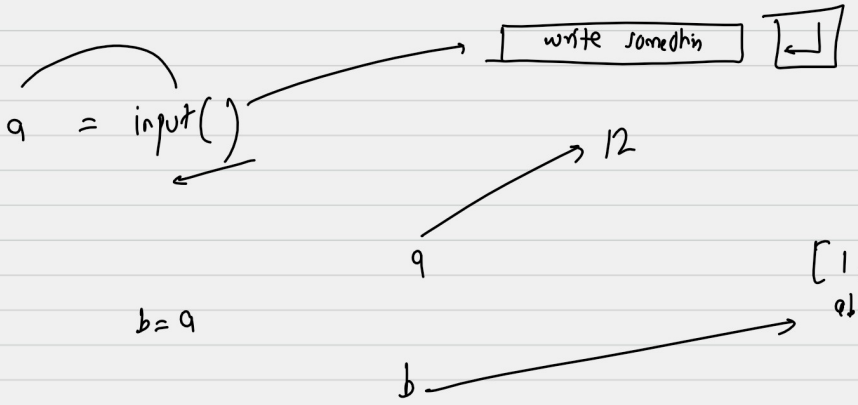

person (krish) ⟶ kitchen
person (monal) → name1 → set → a
person (Bappy)

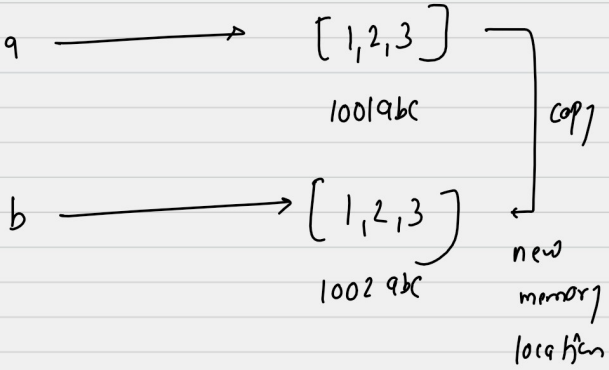

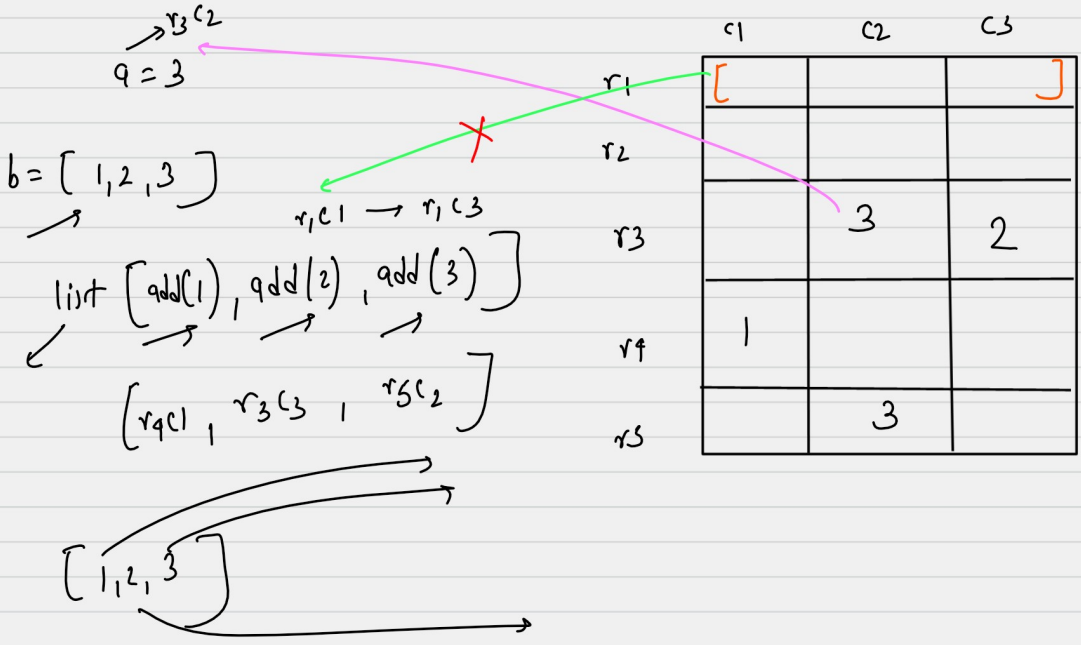

→ cam-2
→ kitchen ⟶ person (krish)
→ names → set → b

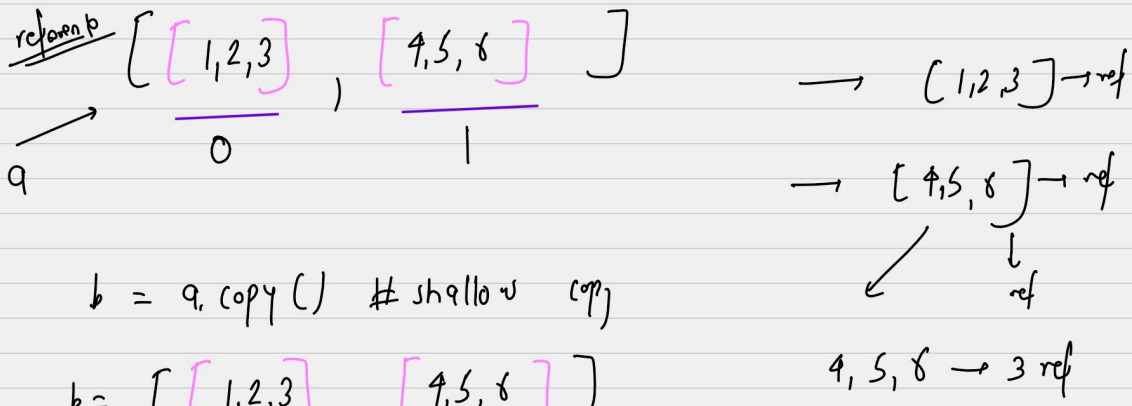

roll-no
